Over 6 years of professional experience in developing software solutions for businesses, clinics, schools, hospitals, and other institutions. My work spans across various industries, applying innovative programming practices to deliver tailored, efficient, and scalable applications.

Work Experience

Programmer

Bunda Pengharapan Hospital, Feb 2022 - Present

- Healthcare Management Systems: Tailored solutions for streamlined operations and enhanced patient care.
- Queue Registration System: Efficient patient registration with ticket-based queuing and display calling for faster, more organized processing.
- Attendance Systems: Cutting-edge technology for accurate staff tracking.
- Commitment to Excellence: Professionalism and accountability drive transformative solutions, optimizing hospital operations and patient care.

Freelance

[Arwildo.com](https://arwildo.com), Sep 2019 – Present

- As a freelance software engineer, I tackle diverse projects, from developing web apps for crypto firms to creating websites for schools and restaurants.
- A standout project involved building both a web application and desktop application for local clinics, providing a comprehensive solution for healthcare management.
- The system securely centralizes patient data, prescriptions, and medical records, ensuring easy access and improved coordination across departments.
- Integration with labs and pharmacies further streamlines operations, boosting both patient care and clinic efficiency.

Education & Learning

Mastering Mobile Programming Android

Skill Academy, 2020

Bachelor's of Physics

Sam Ratulangi University, 2019

Java Coding Bootcamp

Yayasan SIMRS Khanza Indonesia (YASKI), 2024

User Interface Fundamental

Hacktiv8, 2020

Alibaba Cloud Certified Associate

Alibaba Cloud, 2024

Skills

Programming Languages

Java, PHP, JavaScript, Python

Quick learner, capable of mastering new languages within a week if required.

Technologies

React, Next.js, Tailwind, Django, Android Studio, Laravel, MySQL, MariaDB
